Professor Tyndall's Valentine.

- From adaptation and inheritance, My love, we all our powers do derive : Archigony is past, my dear, forever,
- And now e'en scientists are called to wive. You are, I know, a more congolmeration
- Of most minute and protoplasmic cells ; Your hair of karanin, good exes of water ; But for that matter so are all our beiles.
- In all the mighty streggle for existence, From the monera to the form of man, Your line and mine have ever proved the stro gest
- Not by design, but Hackel's la . . . plan. PR I hear, or seem to hear, with earsets, ned backware Your ancestor a million times renerved Sing his sweet notes; I see him phree his feathers
- To woo my bird foremother, de. loved. I know as quadrupeds they roam g And browsed upon some old pr. 'al hill, And that as fishes oft they swam . _Q_ Fix touching fin, in some sweet limpecon
- And once, nitrogenous compounds of carton, They leitered side by side, unconscious . ells, As protamebæ or protogenes, As protomyxæ or as vampyrells.
- For thus, my dear, says Huxley and Ernst Hackel Lamarck foreshadowed it and so did Oken. (Theology be blowed, and cuss all preachers ! They are all bigots-may their jaws be broken!)
- And, love, how very strange yet natural 'tis That this cell-structure called Professor Tyndali Should have a general motion and a Tenden: Toward you, that long have made it pine and dwindle.
- Six pounds of carbon and ten pounds of water From this strong frame, by waste of tissue, gone In one poor month, because you spurned my wooing, You haughty child of Lord Claude Hamilton!
- But now my luminiferous ether love, The cells have all moved in the right direction : For I, Professor Tyndall, shall be yours, You mine, by laws of natural selection.

GREAT CRUELTY .- Mr. Spinner's resignation was great cruelty to the counterfeiters who have succeeded, after years of labor, in imitating his signature. Now they must learn a new one. " What kind of a man is Squire Simmons, any

way?" "Well, you've seen those snow-storms along early in winter, when there's a good deal of wind and not much sleighing? That's the How Composed .- Some careful and deep-think-

ing student has discovered that the word dec-b-t is composed of the initials of " Dun everybody twice. " C-r-e-d-i-t is formed of the initial letters of "Call regularly every day; I'll trust." Two young ladies in the library yesterday

afternoon were discussing a preference expressed by one of them for clean shaven men, when the other was heard to remark: "I don't object to a man with a reasonable quantity of bair on his face, but I would't like to marry a buffalo An inquisitive, but badly-posted Briton went

down to visit Mount Vernon not long since, and after making many inquiries and noting down the answers, he said to the superintendent: "Ah! may I hask you if General Washington was in the harmy?" "He was, sir," said the superintendent. "And on which side, Union or Rebel?" "Rebel, sir," was the reply, which was carefully noted down.

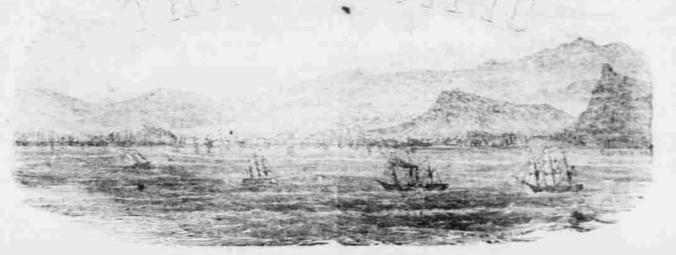

They recognized each other at one of the fish stands, and one called out, " Is that you, Mrs. Jones, and are you after a fish?" " And is that you Mrs. Toddle? And no, I never buy fish." " You don't?"

"No. I have got the particularest husband you ever saw. If he's eating fish and gets four or five scales in his mouth he makes as much fuss as some men would over a cobblestone in a loaf of bread. So I buys liver and there's no scales on it and all you have to do is to give it a rinse, flop it into the spider, and the butcher gets all the blame."-Detroit Free Press.

There's a boy up town who swallowed a can of concentrated lye two years ago, and although his mother made him carry a hatchet in his pocket and a picture of G. Washington over the foot of his bed, she has never been able to get truth out of him since. She wants to know what to do with him. Oiled strap in liberal doses is good, but we think this a desperate case. Better let him read law, and trust a merciful Providence. But the chances are a hundred to one that he will be elected to Congress from some Democratic district in the course of twenty years.

The following good joke is told on one of the Cornell professors: A few days since one of the professors perpetrated a pactical joke upon him-self worthy to be cherished in the archives of the institution. He had occasion to visit a small | Capt. Snow's Building, No. 10 Merchant St. Honolulu. 987 by closet in which the janitor keeps his tools, situated in the basement, near the engine, Not wishing to be disturbed while there, he locked himself in and slipped the key into his pocket. During his manipulations he forgot that he had the key in his possession, and upon trying to get out imagined himself the victim of some malicious physicist. He waited some time for his tormentor to repent, and then became exasper-ated. He pounded the door, kicked, wept and swore through the key-hole, but in vain. The Shoes Fine Clothing, Furnishing Cond. janitor had gone down town, and there was none to heed his cry. In the course of the afternoon he returned, and accidentally iscovered the mighty fallen into a sullen fit of distrust, and destitute of all confidence in humanity. When the professor sat down to his newspaper, after Fancy Goods, Hats, Gaiters, etc., No. 17 Naunum Street, supper, that evening, and, happening to put his hand into his pocket, found the key to that closet, he immediately went into the back yard and ran a wheelbarrow back and forth over himself for

THE HAWAIIAN ISLANDS ARE climate. Certain localities in the group are capecislly favored in this way.—The District of Kona, on
the leeward side of Hawaii, has long been famed as a place of
resort for invalids with bronchital, or lung diseases. With its
pure and mild atmosphere, with its absolute freedom from
storms or high winds, with its porous soil which, with all its
rich vegetation, retains no dampness and yields no malaria, and
with an unvarion (emperature—that of the Argoritan with an unvarying temperature—that of the American or Southern European June—ALL THE YEAR ROUND, the climate of Kona is one of the healthlest and most luxurious on the globe.

The undersigned, at his house at Kaawaloa, a house unsqualed in the district for size, cleanliness, commodiousness, and thoroughness of furnishing, is prepared to give boarders excellent rooms and all obtainable comforts in the way of diet,

THERE ARE FRESH WATER BATHS on the premises, and fine sea bathing within a short distance. The steamer Kilanes and the schooners Ullama and Prince, run regularly between Honolulu and the Kaawaloa landing.

The undersigned employs no agents nor runners. His house speaks for itself upon inspection.
